Waverley Private... Guaranteed Private Room

Waverley Private Hospital is thrilled to share the news that stage 1 of the major hospital redevelopment worth \$16 million is now complete, with stage 2 due for completion just prior to Christmas.

The decision was made by Ramsay Healthcare late last year to expand Waverley Private Hospital in order to continue to provide high quality care to maternity and surgical patients, particularly from the local community.

The new surgical ward boasts 32 private rooms, each with its own ensuite. The rooms are flooded with natural light, are luxuriously finished and provide a sense of calm required for any hospital stay. "Our hospital focuses on being the first choice hospital for patients, and can now boast that we can guarantee all patients a private room" stated Emma Saliba Director of Clinical Services.

Four beds in the new ward provide a higher level of care, with continuous monitoring and observation. This High Dependency Unit is staffed by specialised nursing staff.

The Day Surgery unit which will open in December has been architecturally designed according to the latest Australasian Health Facility Guidelines, providing the best-practice approach to health facility planning. The expansion also includes new consulting suites and new state of the art, fully integrated operating theatres.

Waverley Private Hospital continues to offer free parking.
