

Day Infusion Centre

Since opening The Waverley Private Day Infusion Centre specialises in the care and support of patients receiving day medical therapy (usually by IV infusion), often used for the treatment or management of chronic illness.

The Day Oncology and Infusion Centre offers patients the convenience of local day treatment service delivered in a relaxed and welcoming atmosphere, taking some of the anxiety and inconvenience away of receiving treatment, and enabling patients and their families to continue with their lives during their treatment period.

Services available:

- **chemotherapy**
- **iron infusions (Ferrum and Ferrinject)**
- **blood transfusions**
- **specialist drug infusions**
- **haematological treatments**

Free Parking
